7.1.10 RYLINGTON PARK LADIES DAY 2024	29
7.1.11 LATE APPLICATION FOR THE 2023 RYLINGTON PARK SCHOLARSHIP	31
8. MEMBERS QUESTIONS ON NOTICE	33
9. LATE ITEMS / URGENT BUSINESS MATTERS	33
10. CONFIDENTIAL ITEMS OF BUSINESS	33
11. CLOSURE	33

AGENDA

1. DECLARATION OF OPENING

The Presiding Member declared the meeting open at pm.

Acknowledgement of Traditional Custodians

We acknowledge and pay our respects to the Traditional Custodians of the land on which we meet and work.

Committee meetings are public meetings.

Committee members and staff risk being held personally liable if their comments are defamatory, or breach any duty of confidentiality.

Statements made during Committee meetings are solely those of the person making them. Nothing expressed at a Committee meeting can be attributed to the Shire, unless it is adopted by a resolution of Council.

The Confirmed Minutes of a Committee meeting are the official record of that meeting, verbatim minutes are not required.

May I ask everyone here today, to make sure your mobiles are turned off or on silent for the duration of the Meeting.

This meeting will be audio recorded for minute taking purposes.

2. RECORD OF ATTENDANCE

2.1 ATTENDANCE

Councillors

Shire President
Councillors

Cr Richard Walker
Cr Charles Caldwell
Cr Michael Wright
Cr Darren King

Community Committee Members

Mr Andy McElroy
Prof Kerry Brown

Council Officers

Chief Executive Officer
Rylington Park Farm Manager
Rylington Park Farm Coordinator
Executive Officer

Leonard Long
Marc Deas
Erlanda Deas

7.1.2 WESTERN AUSTRALIAN AGRICULTURAL RESEARCH COLLABORATION (WAARC) RESEARCH FUNDING OPPORTUNITIES	
File Ref:	RP/01/002
Previous Items:	Nil
Applicant:	Nil
Author and Title:	Leonard Long, Chief Executive Officer
Declaration of Interest:	Nil
Voting Requirements:	Simple Majority
Attachment Number:	Nil

Moved: Seconded

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

- 1. Approves the use of the Rylington Park Farm should the Edith Cowan University’s project on Soil Health be successful with its grant submission to the Western Australian Agricultural Research Collaboration**
- 2. Requests Prof. Brown to provide clear plans showing the exact extent of the proposal to use revegetation to increase farm productivity, climate resilience, carbon mitigation and biodiversity in WA farming systems.**

.....
For:
Against:

SUMMARY

Several applications for funding have been lodged through the WAARC, however, to date non have been successful.

BACKGROUND

The WA Agricultural Research Collaboration is a research program funded by the WA Government in conjunction with contributions from four WA Universities and CSIRO <https://waagresearch.org.au>.

The WAARC provides opportunity for undertaking and funding research across Western Australia and has a mission to support collaborative research in the various areas relating to agriculture with the main focus being grains research.

REPORT DETAIL

ECU and Rylington Park may develop competitive funding applications to be supported in research areas that may benefit the WA farming sector. The funding needs to be matched so that not all research projects will attract funding and the program of research needs to support the WAARC research priorities. Notwithstanding, there are expected to be opportunities to support research of interest to Rylington Park Farm and SW Agricultural Community. There will be no funding requirement for the Shire or the

farm to contribute to research but that any project would require in kind contribution i.e. the use of the farm, and this contribution to be approved by the Shire and the RP Committee.

The following are current pending funding applications:

- a. One ECU project on Soil Health has been invited to second round assessment following success in the first round EOI process. This project will utilise drone technology and Rylington Park will be one of the case studies if successfully funded through the WAARC.
- b. The WAARC has another funding round for the Climate Resilience Program in early 2024 and the failed EOI project with Greening Australia, Australian Wool Institute, ECU and Murdoch university has been invited to resubmit the previous EOI on the topic using revegetation to increase farm productivity, climate resilience, carbon mitigation and biodiversity in WA farming systems to this upcoming round.

SHIRE OF BOYUP BROOK STRATEGIC COMMUNITY PLAN 2021 – 2031

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

- 1. Notes the report and requests Prof Brown to provide a further update at the next committee meeting.**

.....
For:
Against:

SUMMARY

ECU is to provide the committee with an update on the overall use of the drone, not restricted to Rylington Park Farm.

BACKGROUND

The Shire entered into a Memorandum of Understanding (MOU) with Edith Cowan University (ECU) on 29 October 2021. The MOU established an agreement for ECU to utilise Rylington Park for agriculture and regional development related research and allied education programs. The MOU endorsed a high level, strategic relationship with ECU, with the intention of expanding research and training opportunities for Rylington Park. It was intended that results of any research would be shared with farmers in Boyup Brook to the betterment of farmers and related businesses in the area.

On 8 March 2022, ECU wrote to the Shire inviting the Shire to partner in a major research initiative in co-funding a remotely piloted drone to assist in undertaking research projects at Rylington Park (Attachment 7.1.3A).

Council at its Ordinary Council Meeting held on 28 April 2022 approved funding of \$10,000 from the Rylington Park account for a co-contribution to purchase a fixed wing drone in partnership with Edith Cowan University.

REPORT DETAIL

Prof Brown to provide an update.

SUMMARY

The report is to provide feedback on the planning preparations for the 2024 Rylington Park Field Day.

BACKGROUND

The Rylington Park Field Day, held at Rylington Park Farm in Boyup Brook, Western Australia, is a significant event in the agricultural calendar, designed to showcase the latest in agricultural research, technology, and practices.

This event provides a platform for farmers, researchers, industry professionals, and agribusinesses to come together to exchange knowledge, explore new ideas, and discuss challenges facing the agricultural sector. It typically features demonstrations of new farming equipment, workshops on innovative farming techniques, and presentations by experts on topics ranging from crop and livestock management to sustainable farming practices and market trends.

The field day is an opportunity for the agricultural community to see firsthand the application of research outcomes and technological advancements, fostering a collaborative environment aimed at enhancing the productivity and sustainability of farming operations in the region.

Rylington Park Farm, with its commitment to agricultural innovation and education, serves as an ideal venue for such an event, contributing to the ongoing development and prosperity of the agricultural sector in Western Australia.

REPORT DETAIL

Rylington Park Farm Coordinator to provide an update on the planning for the 2024 Rylington Park Field Day.

Voting Requirements:	Simple Majority
Attachment Number:	Nil

Moved: Seconded

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

- Notes the report and requests the Rylington Park Farm Manager to continue monitoring the water levels.**

.....
For:
Against:

SUMMARY

The purpose of the report is to provide the committee with the current and projected water levels on Rylington Park.

BACKGROUND

Rylington Park Farm holds a distinguished place in the agricultural landscape of the region, known for its commitment to agricultural research, innovation, and education. The farm operates not just as a commercial enterprise but also as a hub for the development and demonstration of cutting-edge farming techniques and technologies.

It has a long history of contributing to the advancement of agriculture in the area, often hosting field days, workshops, and research trials in collaboration with agricultural research organisations, universities, and industry groups.

REPORT DETAIL

Pumping from two (2) sources has taken the pressure off the big dam. Multiple leaks have been challenging, but the system is once again working well, and should be ok if the rain comes as usual.

The current system of pumping water from paddock 48 to the sheds for toilets and gardens and pumping to the tank for the stock from paddock 8, is working well. The 3 dams in paddock 8 is our backup water supply due to the existing catchment area and clay base.

Only one well next to the creek still has water – the well is 2.4m deep with a depth of 1.3m of water currently. Salinity is 4 milli siemens / 2600 ppm – the same as the soak

about 40m above it. This can be an option to mix with the water from paddock 8 but will require a pump and piping. We might look at pumping from the soak if needed.

Most of the stock are currently in paddocks with dams – only 600 or so are drinking from troughs. We’ve had numerous water leaks, but all have been found & repaired for now. Dam levels are dropping but not too concerning for the time-being.

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

- 1. Request the Rylington Park Farm Manager to provide the committee with the outcome and recommendations of the Safe Farms Health and Safety Assessment.**

.....
For:
Against:

SUMMARY

The purpose of this report is to provide the Committee with an update on any Work Health and Safety issues / concerns on Rylington Park Farm.

BACKGROUND

The implementation of the *Work Health and Safety Act 2020* introduces significant implications for farming operations, emphasising the importance of establishing and maintaining a safe working environment for all employees.

This legislation mandates farm owners and operators to proactively identify, assess, and mitigate risks to prevent workplace accidents and illnesses. It necessitates the adoption of comprehensive safety management practices, including regular training for staff on safety protocols, proper use of equipment, and emergency response procedures. Additionally, the Act requires thorough documentation and reporting of safety incidents, reinforcing accountability and continuous improvement in safety standards.

Compliance with this Act not only aims to protect the physical well-being of farm workers but also has financial and legal ramifications for the farming business, stressing the need for diligent adherence to safety regulations to avoid penalties, litigation, and potential damage to reputation.

Overall, the *Work Health and Safety Act 2020* compels farming operations to prioritise safety, leading to healthier workplaces and potentially enhancing productivity through reduced downtime and fostering a culture of safety.

REPORT DETAIL

Safe Farms WA was contacted to conduct a farm health and safety assessment. They will get back to us late next week with the costs involved and when they can do it.

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

- Notes the update and requests Prof Brown to provide a further update on the matter at the next Committee meeting.**

.....
For:
Against:

SUMMARY

This purpose of this report is to provide the committee with an update on the potential hemp trials on Rylington Park.

BACKGROUND

Hemp cultivation in Western Australia (WA) represents an evolving sector within the state's agricultural landscape, driven by increasing interest in sustainable and versatile crops. Hemp, known scientifically as Cannabis sativa, is grown primarily for its fibres, seeds, and oil, which have a wide range of applications in textiles, construction materials, cosmetics, and health food products, among others.

The legal framework for growing industrial hemp in WA has developed over time, with significant milestones being the introduction of the *Industrial Hemp Act 2004*, which enabled the cultivation of hemp with a tetrahydrocannabinol (THC) content of not more than 0.35%. This legislation marked the beginning of regulated hemp farming in the state, setting the stage for an industry focused on leveraging the environmental and economic benefits of hemp.

SUMMARY

The monthly report is to provide Council with an update on the operations at the Rylington Park Farm.

BACKGROUND

The Rylington Park Institute for Agricultural Training and Research, known as Rylington Park, is a key agricultural asset located 27km from Boyup Brook, in Mayanup.

This 650-hectare property was donated to the Shire of Boyup Brook in 1985 by Mr. Eric Farleigh for agricultural research and training, aimed at the betterment of the Boyup Brook community. Managed by the Shire, the property runs various agricultural programs, including shearing schools and fertiliser and seed trials.

It also offers scholarships to youth in agriculture and has a strategic relationship with Edith Cowan University for research and education, with the intent to share findings with the local farming community. Rylington Park is committed to supporting the agricultural industry and the regional community through its various initiatives.

REPORT DETAIL

Weed Control

- Spraying thistles and around buildings
- Pulling out and spraying melons

Infrastructure and Equipment Maintenance

- Installation of the new house roof will be finished this week.
- Installed new water trough.
- Fencing maintenance
- Keep fixing water leaks and pumping water for the trough system.

Crop Management

- Harvest finished.
- 135 barley straw bales were rolled and carted.
- Summary

	Tons	Price	Total	
Canola (\$800 + oil)	50	\$822.53	\$41,126.50	66.5 Ha = t/Ha
Canola still at CBH	89.71			
GM still at CBH	46.7			20 Ha = 2.34t/Ha
	186.41			2.16t/Ha
Barley still at Bunge	51.65			63 Ha = 4.57t/Ha
Barley sold	19.64	\$340.00	\$6677.60	
Barley kept	216.71			
	288			

Livestock Sales

- Sales Transactions:
 - 150 XB lambs are scheduled to leave on 4 February @ \$2/kg.
 - 600 cull for age ewes are potentially going next week.

Livestock Handling and Management

- Feeding sheep grain, hay and mineral lick. Bought 26t lupins.
- Still have all cull for age ewes, “cull” hoggets and blue tag wethers to sell.
- Drenched all merino lambs.
- Rams were put in with the ewes.
- Bought 7 White Suffolk rams from Blackwood White Suffolk Stud which were put in with the cull hoggets’ to be sold as mated, after scanning.

Wool and shearing

- Had shearing schools 13-17 November, 18-20 December (advanced school) and 15-19 January. Planned schools 26 February – 1 March and 15-19 April.
- Sold 61 bales wool and have 5 unsold bales in Perth.

Livestock Inventory as of November

- White Suffolk: 23

- XB Lambs: 170
- Merino: 4738

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

1. Approves donating all funds obtained through the Ladies Days auction to the Ronald McDonald House.

.....
For:
Against:

SUMMARY

The committee is requested to consider approving the donation of funds as per the recommendation.

BACKGROUND

This year’s annual Storm in a Teacup ladies’ day will be the thirteenth since started in 2012. It forms part of the annual Boyup Brook calendar and is well supported by local ladies and businesses. The theme for this year is “Family Matters”.

REPORT DETAIL

Every year funds are raised by auctioning off the logo painting with the proceeds donated to a nominated charity or organisation. As the theme is around family, Officers consider it appropriate to donate the money raised to an organisation who looks after family matters.

Children from 2 local families are receiving treatment in Perth with their families using the Ronald McDonald House as accommodation during these periods.

SHIRE OF BOYUP BROOK STRATEGIC COMMUNITY PLAN 2021 – 2031

Key Imperatives	Governance and Organisation
Outcome	Demonstrate effective leadership, advocacy and governance
Objective	Provide transparent decision making that meets our legal and regulatory obligations, reflects the level of associated risk, and is adequately explained to the community

7.1.11 LATE APPLICATION FOR THE 2023 RYLINGTON PARK SCHOLARSHIP	
File Ref:	RP/01/002
Previous Items:	Nil
Applicant:	Nil
Author and Title:	Leonard Long, Chief Executive Officer
Declaration of Interest:	Nil
Voting Requirements:	Simple Majority
Attachment Number:	7.1.11A Letter for Scholarship

Moved: Seconded

OFFICER RECOMMENDATION RP 24/02/...

That the Committee:

1. Requests the Chief Executive Officer to advise Mr. Goerling that the application cannot be considered as the scholarship submissions for 2023 were awarded in
2. Request the Chief Executive to invite Mr. Goerling to submit an application for a Rylington Park Scholarship in the 2024 round when advertised.

.....
For:
Against:

SUMMARY

Rylington Park Scholarship is an annual scholarship which has been awarded since 2013 to Boyup Brook Year 9 or Year 10 students who commit to attend an Agricultural College in Year 11 and 12.

BACKGROUND

The scholarship is awarded to Boyup Brook Year 9 or Year 10 students who commit to attend an Agricultural College in Year 11 and 12. The scholarship provides support for the student and will ensure the sustainability of agriculture in the Boyup Brook community.

Students who are interested to attend an Agricultural College in Year 11 and 12 are to submit a short-written (200-500 word) expression for the scholarship.

REPORT DETAIL

A request dated 29 January 2024 has been received from Mr & Mrs Goerling, parents of Charlie Goerling Attachment 7.1.11A.

Unfortunately, the request has been received after the 2023 Rylington Park Scholarships have been awarded. Should the committee consider this request

favourably it could create a precedent and result in additional request being received after the closing date.

Further it must be noted that the budget for the scholarship was utilised through the awarding of a number of successful scholarships.

SHIRE OF BOYUP BROOK STRATEGIC COMMUNITY PLAN 2021 – 2031

Key Imperatives	Social and Community
Outcome	Promote quality education, health, childcare, aged care and youth services.
