

Playground Update

The Shire of Boyup Brook is proud to announce they will be partnering with Talison Lithium Pty Ltd to deliver a new all ages playground area at Sandakan Park in Boyup Brook. The partnership will see Talison invest \$1.716 million dollars through the Talison Community Investment program (CIP) into the community-based project, providing a safe and accessible play space for all ages.

The Shire has remained committed to providing the community with the new playground, forming a working group in 2023. The new playground will replace the existing, aging playground which is no longer fit for purpose. The playground is the first phase in the redevelopment of Sandakan Park which will be transformed into a family friendly space, encouraging social connections and healthy lifestyles.

The design and construction of the playground has gone out to tender with many enquiries followed by a site meeting on the 12th July 2024. Tenders close on the 2nd August 2024, they will be assessed with Council awarding the tender by the first week of September.

Sandakan Park is in walking distance to local cafes and shops and is a great open space for the local community, visitors and tourists to enjoy.

The Shire is delighted to be partnering with Talison and look forward to a strong and prosperous relationship into the future.

Further information about the project will be available in the coming weeks and will be publicised on the Shire website and social media.

EMERGENCY
WARNING

Australian Warning System

Our climate is complex but now there's a new simple warning system for natural disasters. There are three warning levels that are the same for bushfires, storms, floods, cyclones and heatwaves. These warning levels move up and down to reflect the risk to your life or property, before during and after a natural disaster. Learning these three levels, and how to respond to them, could save your life. Get to know the new warning system by visiting www.emergency.wa.gov.au/aws
