Public Notice

Mains water supply cannot be guaranteed during a bushfire. Water Corporation is prepared for bushfire season. However, we cannot guarantee that water pressure or water supply will be maintained in the event of a bushfire. Extreme demand, fire damage and power cuts can all result in a total loss of water. If you plan to stay and defend your property during a bushfire, you must have your own independent water supply and pumping capability. You cannot rely on mains water. Details and resources about how to prepare for bushfire season can be found at mybushfireplan.wa.gov.au. For warnings and advice visit emergency.wa.gov.au

Boyup Brook Bridgetown Road will be undergoing roadworks from 10th January until 30th June. These will include culvert works, shoulder widening works and shoulder sealing works. Please obey all road rules and drive to the conditions of the road.

RANGER NEWS

The hot weather is now upon us and we need to make sure we all do the right thing this summer. Keeping your place tidy and within the Firebreak and Fire Information guidelines is your responsibility. It's great to see the effort that most are making to stay Bushfire Ready. Take advantage of the Shire's FREE tip days and get rid of any piles of leaves, fallen branches or old building materials that you have on your property that may increase your risk of fire. Taking care of your pets is also ensuring that your cat or dog is currently registered. Reminders will be sent out this month. If you need to update your pets' details, please give the Shire a call or pop in. Registering your pets makes it easy for me to return them when they decide to go walkies rather than take them to the pound. Registering your pet also allows for future town planning to ensure that the Shire is meeting the needs of our community.
