Example of Firebreak Variation

Please forward this completed form and accompanying photographs of the area declared for a variation to the Shire of Boyup Brook, Administration Building, PO Box 2, Boyup Brook WA 6244 before 1 October. This form can also be lodged by email to [shire@boyupbrook.wa.gov.au](mailto:shire@boyupbrook.wa.gov.au)

**Note:** Failure to comply with the requirements of the Shire of Boyup Brook's First and Final Firebreak and Fire Hazard Notice may result in a \$250 modified penalty (infringement notice) being issued.

**The maximum penalty under the Bush Fires Act 1954 for failing to comply with the requisitions of a Notice under Section 33 is a fine of up to \$5000. Additionally, contractors' fees and administration costs may also be recovered.**

## Variation Application Guidelines

The following guidelines are acceptable categories for which a variation to firebreak may be applied for:

1. The topography makes the normal placement of a firebreak impractical or dangerous and alternative firebreak emergency access and fire prevention methods that meet the intention of the fire break order is provided and demonstrated.
2. The topography/composition makes the normal methods of construction impractical (cap stone, rocky or waterlogged) and alternative firebreak emergency access and fire prevention methods that meet the intention of the firebreak order and is provided and demonstrated.
3. An approved Bushfire Management Plan for the property is in place and being conformed to and meets the intention of the fire break order and is provided and demonstrated.
4. The firebreak variation only applies to a portion of the property that is reticulated lawn that is kept green and it can be demonstrated that it is maintained regularly to less than 50mm from the 30 November through to the 01 April inclusive.
5. The firebreak variation only applies to a portion of the property that is reticulated feed paddocks that is kept green, and it can be demonstrated that it is maintained regularly from the 30 November through to the 01 April inclusive.
6. The variation only applies to the portion of the property that has reticulated garden beds, lawn, orchard, or other accepted sustained cultivation, unless it is deemed by the Shire or its Authorised Officer that the fuel type/ loadings are a hazard. However, there must be a cleared access provided to enable emergency vehicular access to buildings and outbuildings and all parts of the property in accordance with Shire's firebreak notice.
7. Where permission was previously granted to plant trees, where the firebreak would normally be placed, and placement of the firebreak is in an approved alternative position that affords proper emergency vehicle access and hazard management and prevention principles in accordance with Shire's firebreak notice.
8. Firebreaks are provided in agreed alternative locations to negate natural obstructions.
9. Constructed driveways may where authorised, substitute for firebreaks as long as it remains trafficable for the firebreak as a whole and is always maintained clear of all obstructions and inflammable materials in accordance with Shire's firebreak notice.

**All requests must be made by the property owner or person authorised to act upon the owner's behalf. Individual requests are required for each property and must be submitted on the approved document/ application form.**

**The authorising officer has the right to grant, refuse, alter or add any conditions to an application, where alterations or additions are applicable, failure to comply within the timescales provided by the authorised officer will result in the refusal of the application and prosecution as if a firebreak had not been installed in accordance with the Shire's firebreak notice.**
