## SHIRE PRESIDENT'S MESSAGE

There is a lot going on in Boyup Brook. Works are well underway on the LRCI funded projects throughout the Shire. Completed works include additional parking on Forrest Street, Cranbrook Road shoulder improvements, the first two lighting towers at the football oval and Flax Mill upgrades - laundry and ablution upgrades, improved outside lighting, energy efficient hot water systems and new reticulation.

Round two projects will include more upgrades to the Flax Mill - a bigger camp kitchen, lighting for the Flax Mill model and re-sheeting the main shed. The Swimming Pool will get additional shade, a gym, new floor coverings, inclusive access and a chlorine safety system.

## COMMUNITY PROJECT PRIORITIES and COMMUNITY STRATEGIC PLAN

The Shire has received advice from the Australian Government that Boyup Brook will receive \$915,000 in Phase 3 of the Local Roads and Community Infrastructure (LRCI) Program in January 2022. The Shire would like to give you the opportunity to participate and contribute to the local decision-making processes. You are invited to attend one of these community workshops to have your say about how we might achieve the goals of the Strategic Community Plan and to discuss potential projects.

## 2021 Census - Tuesday 10 August 2021

Australia's next national Census will be held on Tuesday 10 August 2021. The Census is a snapshot of who we are and tells the story of how we are changing. It's used to inform many things, from planning schools, healthcare and roads to local services for individuals, families and communities. Your participation is important. The Census provides data on important topics such as populations, rents, mortgages, incomes, religion, languages, housing and more. It helps governments, businesses, researchers and not for profit and community organisations make informed decisions. For example:

the Royal Flying Doctor Service uses Census population data to determine what health services are required in rural and remote areas

the Council of the Ageing (COTA) uses Census data to help understand issues affecting older Australians

Crime Stoppers uses Census data to deliver prevention campaigns that help keep communities safe

the Wheatbelt Business Network uses Census data to guide how it supports women in business. These services help develop enterprise, support towns and contribute to the economic growth of metro and rural regions.

The Census is a massive undertaking, and is the largest peacetime logistical effort in Australia. It includes around 10 million households and 25 million people.

### Change of Staff at the Shire

The Shire has recently had a few changes in staff. We are pleased to welcome Ben Robinson who has commenced in the role of Finance Manager. We also say farewell to Daly Winter after many years of service and also to Joanna Kaye. The Shire would like to thank both Daly and Joanna for their years of dedication to our community.

THANK YOU
