#### **SUMMARY**

The Monthly Financial Report for 31 October 2022 is presented for Council's consideration.

#### **BACKGROUND**

The Local Government Act 1995 and the Local Government (Financial Management) Regulations 1996 require local governments to prepare monthly reports containing the information that is prescribed.

The Regulations require local governments to prepare annual budget estimates and month by month budget estimates so that comparatives can be made to Year to Date (YTD) Actual amounts of expenditure, revenue and income, and materials variances can be commented on.

#### **COMMENT**

The Shire prepares the monthly financial statements in the statutory format along with other supplementary financial reports consisting of:

- (a) Statement of Comprehensive Income by Program;
- (b) Statement of Comprehensive Income by Nature/Type;
- (c) Statement of Financial Activity by Nature;
- (d) Statement of Financial Activity by Program;
- (e) Summary of Net Current Asset Position;
- (f) Material Variances Report;
- (g) Statement of Financial Position;
- (h) Statement of Cash Flows;
- (i) Report on Progress of Capital Expenditure Program;
- (j) Report on Major Business Units;
- (k) Statement of Cash Back Reserves;
- (l) Loan Borrowings Report; and
- (m) Detailed Operating and Non-Operating Schedules.

At its budget meeting, Council adopted a material variance threshold of \$10,000 or 10%. For interpretation purposes, this means any variance at Function/Program level that is greater than 10% and exceeds \$10,000 in value is reported on and commentary is provided to explain the YTD budget estimate to YTD actual variance. The material variance is shown on the Statement of Financial Activity, in accordance with the *Local Government (Financial Management) Regulations 1996*.

The material variance commentary is now provided in a separate statement, called the Material Variances Report. This statement categorises the variance commentary according to reporting Nature/Type and groups the variances by Operating Revenue, Operating Expenditure, Investing and Financing Activities.

The Statement of Financial Activity as at 31 October shows a closing surplus of \$4,622,929.

The Closing surplus figures brought forward from 30 June 2022 are interim only, and are subject to change due to year-end adjustments and any audit adjustments.

**STATUTORY OBLIGATIONS**

Local Government Act 1995

Section 6.4—Specifies that a local government is to prepare such other financial reports as are prescribed.

Local Government (Financial Management) Regulations 1996:

Regulation 34 states:

- (1) A local government is to prepare each month a statement of financial activity reporting on the sources and applications of funds, as set out in the annual budget under regulation 22(1)(d) for that month in the following detail:
  - (a) annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1)(b) or (c);
  - (b) budget estimates to the end of month to which the statement relates;
  - (c) actual amounts of expenditure, revenue and income to the end of the month to which the statement relates;
  - (d) material variances between the comparable amounts referred to in paragraphs (b) and (c);
  - (e) the net current assets at the end of the month to which the statement relates.

Sub regulations 2, 3, 4, 5, and 6 prescribe further details of information to be included in the monthly statement of financial activity.

#### **SUMMARY**

To review the Ordinary Council meeting dates and times for the 2023 calendar year.

#### **BACKGROUND**

The Local Government Act 1995 requires a local government, at least once a year, to give local public notice of the dates, times and places at which Ordinary meetings of Council are held within the next 12 months.

#### **COMMENT**

Council has historically not had a January meeting and has brought forward the December meeting to a week or more before Christmas. It is suggested that the December meeting would be a week earlier. The reason for changing the February meeting forward is to reduce the time between the last meeting of 2022 and first meeting of 2023.

#### **CONSULTATION**

Ordinary Council meeting as follows:

Shire of Bridgetown is the last Thursday of each month which commences at 5.30pm.

Shire of Donnybrook is the fourth Wednesday of each month which commences at 5.00pm.

Shire of Kojonup is the third Tuesday of each month which commences at 3.00pm.

Shire of Manjimup is the third Thursday of each month which commences at 5.30pm.

#### **STATUTORY OBLIGATIONS**

Section 5.25(1)(g) of the Local Government Act 1995 provides for the giving of public notices of the date and agenda for Council; or Committee meetings.

Regulation 12(1) of the Local Government (Administration) Regulations 1996 provides: -

- (1) At least once each year a local government is to give local public notice of the dates on which and time and place at which –
  - a. (a) The ordinary council meetings; and

- b. The committee meetings that are required under the Act to be open to member of the public or that are proposed to be open to the members of the public, are to be held in the next 12 months.

In accordance with section 5.25(1)(g) of the Local Government Act 1995 and regulation 12 of the Local Government (Administration) Regulation 1996, Council is required to endorse the proposed meeting dates and give local public notice of the purpose, date and time of Committee and Council meeting sot be held over the following 12 month period.

In accordance with Regulations 12 of the Local Government (Administration) Regulations 1996 an advertisement will be placed in the local community paper. In addition, this advertisement will be placed on the Shire’s website and on the Shire’s notice boards.

## 10.4 PLANNING

### 10.4.1 Scheme Amendment 22 – Rezoning various lots to the ‘Town Centre’ zone

<b>Location:</b>	<i>Boyup Brook townsite centre</i>
<b>Applicant:</b>	<i>Shire of Boyup Brook</i>
<b>File:</b>	<i>Amendment 22</i>
<b>Disclosure of Officer Interest:</b>	<i>None</i>
<b>Date:</b>	<i>17 November 2022</i>
<b>Author:</b>	<i>A. Nicoll, Town Planner</i>
<b>Authorizing Officer:</b>	<i>Dale Putland, Chief Executive Officer</i>
<b>Attachments:</b>	<i>1. Scheme Amendment (22) - Advertised Document 2. Schedule of Submissions 3. Submissions (letters/emails)</i>

#### **SUMMARY**

Council is requested to finally support the Scheme Amendment No. 22, which proposes to change the ‘Commercial’ zone classification in the Shire’s scheme, to the ‘Town Centre’ zone classification, and rezoning Lot 1 Forrest Street and Lot 35 Barron Street, from the ‘Residential’ zone to the ‘Town Centre’ zone.

The Scheme Amendment No.22 was advertised and the neighbour (Lot 36 Barron St) to the Lot 35 Barron Street indicated concern in relation to a potential loss to their residential amenity, due to the transfer of the Lot 35 property, from the ‘Residential’ zone to the ‘Town Centre’ zone.

In accordance with provisions of the Shire’s Scheme, the design of future development can be managed to ensure protection of the visual amenity of the locality.

## **BACKGROUND**

In June 2022, Council resolved to initiate the Scheme Amendment No.22, which seeks to change the zone classification for specified lots in the Boyup town-centre.

Following Council resolution, the Scheme Amendment was referred to the Environmental Protection Authority (EPA) where it was resolved that the Scheme Amendment does not require assessment under Part IV Division 3 of the *Environmental Protection Act 1986* (EP Act) and that it is not necessary to provide any advice or recommendations.

Post Environmental Protection Authority consideration, the Scheme Amendment No.22 was advertised and at the close of advertising, nine (9) submissions were received.

The submissions and a schedule summarising the submissions are attached to this report item for the Council to review. The schedule delivers information on authorities making a submission, a summary of comments and recommendations.

## **COMMENT**

The change in zone classification from 'Commercial' to 'Town Centre' is simply a name change.

It is considered that the 'Town Centre' classification, better reflects the location characteristic (centre of town) of the properties, which are currently classified as 'Commercial'.

The rezoning of the Lots 1 Forrest Street and 35 Barron Street, to the 'Town Centre' zone classification, would allow for the consideration of a mixture of uses at these Lots, including shop and/or housing type uses.

The Lots 1 Forrest Street and 35 Barron Street are suitably located to accommodate a mixture of land uses, for the following reasons:

- The sites are within walking distance to services and other established commercial activities located within the town centre;
- The sites are not subject to environmental constraints (e.g. extreme bushfire hazard or flooding); and
- The sites are connected to utilities including sealed roads, power and water.

During the advertising process, the 'Residential' zone property at Lot 36 Barron Street, indicated concern that any future commercial development/use, at Lot 35 Barron Street, may detrimentally impact on their current residential amenity.

In response to the concerns raised, Council is requested to consider the following scheme clause, which is used at the development stage, to ensure development and use of land, does not detrimentally impact on the amenity enjoyed by adjacent landholders:

**35 PROTECTION OF AMENITY**

*No building shall be so constructed, finished or left unfinished that its external appearance would, in the opinion of the Council, detract from the visual amenity of the locality or have the potential to depreciate the value of adjoining property. All land and buildings shall be used and maintained as to preserve the local amenity to the satisfaction of the Council.*

Council is recommended to finally support the scheme amendment and to agree to forward onto the Department of Planning, Lands and Heritage, with a request that the Hon. Minister for Planning grant approval to the amendment and its gazettal.

**STATUTORY OBLIGATIONS**

Regulation 50 of the *Planning and Development Regulations 2015* states:

(1) *In this regulation —*

*consideration period, in relation to a standard amendment to a local planning scheme, means the period ending on the latest of the following days —*

- the day that is 60 days after the end of the submission period for the amendment;*
- the day that is 21 days after the receipt of a statement in respect of the amendment delivered under section 48F(2)(a) of the EP Act;*
- the day that is 21 days after the receipt of a statement in respect of the amendment delivered under section 48G(3) of the EP Act if that statement is in response to a request by the local government made under section 48G(1) of the EP Act before the later of the days set out in paragraphs (a) and (b);*
- a day approved by the Commission;*

Regulation 53 of the *Planning and Development Regulations 2015* states:

(1) *After passing a resolution under regulation 50(3) the local government must provide the advertised amendment to the local planning scheme to the Commission together with the following —*

- a) *a schedule of submissions made on the amendment;*
- b) *the response of the local government in respect of the submissions;*
- c) *particulars of each modification to the amendment proposed by the local government in response to the submissions;...*
- d) *a copy of the resolution passed under regulation 50(3);*

*Regulations 35 and 36 of the Shire's scheme state:*

**35 PROTECTION OF AMENITY**

*No building shall be so constructed, finished or left unfinished that its external appearance would, in the opinion of the Council, detract from the visual amenity of the locality or have the potential to depreciate the value of adjoining property. All land and buildings shall be used and maintained as to preserve the local amenity to the satisfaction of the Council.*

**36 NUISANCE**

*No land, building or appliance shall be used in such a manner as to permit the escape therefrom of smoke, dust, fumes, odour, noise, vibration or waste products in such quantity or extent, or in such a manner as, in the opinion of the Council, will create, or be a nuisance to, any inhabitant or to traffic or persons using roads in the vicinity.*

**POLICY IMPLICATIONS**

There are no policy implications relating to this item.

**CONSULTATION**

The Scheme Amendment 22 was advertised and reviewed in accordance with the *Planning and Development Regulations 2015*. Adjoining properties and government agencies were requested to make comment.

**BUDGET/FINANCIAL IMPLICATIONS**

There are no financial implication relating to this item.

**STRATEGIC IMPLICATIONS**

There are no strategic implications relating to this item.

**VOTING REQUIREMENTS**

Simple majority.

## **CONCLUSION**

The Scheme Amendment No.22 proposes to change the 'Commercial' zone classification in the Shire's scheme, to the 'Town Centre' zone classification, and rezoning Lot 1 Forrest Street and Lot 35 Barron Street, from the 'Residential' zone to the 'Town Centre' zone.

The neighbour to the Lot 35 Barron Street expressed concern that commercial type development adjacent to their residential property may detract from the current residential amenity.

In considering the scheme clause 35, which is used to protect the amenity of an area from incompatible development, the Council is requested to finally SUPPORT the Scheme Amendment No.22.

## **OFFICER RECOMMENDATION – ITEM 10.4.1**

**THAT Council, pursuant to Part 5 of the *Planning and Development Act 2005*, resolves to:**

- 1. Finally approve, Scheme Amendment No. 22, to amend the Shire of Boyup Brook Local Planning Scheme No. 2 by:**

- a) Rezoning Lot 1 Forrest Street, Boyup Brook from the 'Residential' zone classification to the 'Town Centre' zone classification and amending the Scheme maps accordingly, which includes deleting the density coding R15/30.*
- b) Rezoning Lot 35 Barron Street, Boyup Brook from the 'Residential' zone classification to the 'Town Centre' zone classification and amending the Scheme maps accordingly, which includes deleting the density coding R15.*
- c) Amending the scheme maps by replacing the 'Commercial' zone classification with the 'Town Centre' zone classification.*
- d) Deleting the clause 30(2) as follows:*

*Where a lot has dual density coding R15/30, the local government may approve residential development at a higher code where development is connected to a Septic Tank Effluent Disposal (STED) community scheme; and*

- e) Re-numbering subsequent sub-clauses accordingly.*

- f) Amend text in the "Table of Contents" by:*

*a. At Part 3, 28, replacing 'commercial' with 'Town centre'.*

- g) Amend text at Table 2 by:*

*a. Replacing the 'Commercial' zone classification with the 'Town Centre' zone classification.*

- h) Amend text at Table 3 by:*

*a. Replacing 'Commercial' (column 2) with 'Town Centre'.*

*i) Amending text at clause 28 and Table 6 by:*

*a. Replacing the words 'COMMERCIAL' and 'Commercial', with the words 'TOWN CENTRE' and 'Town Centre' respectively.*

*j) Amending text at schedule 4, under column 1 (land use and/or development requiring advertisement), row 3 (Property Transactions) by:*

*a. Replacing the word 'Commercial' at b), with the words 'Town Centre'.*

2. Note the submissions received as detailed in the Schedule of Submissions and Recommendations.
3. Notify the applicant and submitters of Council's decision.
4. Forward amendment documentation and submissions to the Western Australian Planning Commission with a request that the Hon. Minister for Planning grant approval to the amendment and its gazettal.

The Amendment is a 'Standard' amendment under the provisions of the Planning and Development (Local Planning Schemes) Regulations 2015 for the following reasons:

- a) The amendment would have minimal impact on land in the scheme area that is not the subject of the amendment; and
- b) The amendment does not result in any significant environmental, social, economic or governance impacts on land in the scheme area.

**SUMMARY**

The purpose of this report is to put before Council the request to finally support the rezoning of Lot 13129 Bridgetown Boyup Brook Road, from the 'Rural' zone and the 'Public purposes' reserve (purpose: water and parkland), to the 'Light Industry' zone.

The following map illustrates the Lot, subject to the scheme amendment proposal.

The subject property is 3.9 hectares in area, is owned by the Shire of Boyup Brook, has direct access to a major road and has an extensive cleared and leveled building envelope of approx 2 hectares.

The current zone (Rural) and reserve (Public purposes) classifications pertaining to the land are not suitable. The Lot is not used for public purposes or for agriculture.

A 'Light Industry' zone classification is considered more appropriate, given the size of the property (too small for rural), natural vegetated buffers to surrounding land uses, and the cleared leveled areas accessible for development.

Submissions received on behalf of neighbouring properties, emphasized that light industrial development, would transform the amenity of the area, from a peaceful rural lifestyle to a noisy industrial operation. This report item recommends that the Council support the rezoning on the grounds that:

1. Light industrial activities have low impact characteristics (Light industry may include activities such as; furniture manufacturing, showrooms, fuel depot, garden centre and motor vehicle repairs. High impact industries are located in 'General Industry' areas).
2. Industrial development is required to adhere to the Shire's scheme provisions (provisions 35, 36, 37, 39 and 43), which are applied to ensure land use and development is undertaken, such that the amenity of the area is protected, as follows:
  - The pleasantness or attractiveness of the place, is maintained (cl.35)
  - Any smoke, dust, fumes, odour and noise is contained so as not to cause nuisance to any neighbouring inhabitants (cl.36)
  - The appearance of development is enhanced or screened with the use of landscaping (cl.37)
  - The height of development does not exceed 10m (cl.39)
  - Vegetation is protected and rehabilitated (cl.43)
3. Based on the scheme objectives for the light industry zone, it is expected that industrial development will occur to ensure the amenity of the area is maintained. In accordance with the Shire's scheme, the objectives of the Light Industry zone require the protection of the amenity of an area (e.g. protection of vegetation). Amenity' is defined in the Model Scheme Text, as: '... all those factors which combine to form the character of an area and include the present and likely future amenity'.
4. Agricultural activities may also generate noise, dust and odour during certain times of the year. The subject property is currently zoned 'Rural', which allows for activities such as 'intensive agriculture' (feedlot), 'commercial vehicle parking', 'garden centre', 'industry rural', 'industry service', 'motor vehicle repair', 'service station', 'telecommunications infrastructure', 'transport depot' and 'warehouse/storage'. These are all commercial type uses, not too dissimilar from activities that may be considered in a light industry zone.

The subject land is physically suited to accommodating light industrial development (cleared building envelope) and the Shire's scheme has suitable provisions to ensure the

amenity of the surrounding rural lifestyle areas are protected. It is therefore recommended that the Council support the rezoning of the site to light industry.

### **BACKGROUND**

The majority of the subject land is zoned 'Rural', with a small area reserved for 'Public purposes' (Water and Parkland). The land is no-longer used for rural or public purpose activities.

The land the subject of this application was previously used for the yarding and sale of livestock, which involved the movement of large trucks to and from the site. A portion of the land is currently developed and used for the washing of trucks.

In June 2022, Council resolved to initiate the Scheme Amendment No.21, which seeks to make available the legitimate use of the land for light industrial activities. The initiation of the scheme amendment is based on a seriously entertained draft Local Planning Strategy, which recommends development of the subject site for light industry.

Following Council resolution, the amendment was referred to the Environmental Protection Authority (EPA), who advised that the scheme amendment does not require assessment under Part IV Division 3 of the *Environmental Protection Act 1986* and that it was not necessary for the EPA to provide any advice or recommendations. In summary, the EPA has not fundamental concern with the proposal to use the subject land for light industrial activities.

Following the EPA decision, the scheme amendment was advertised and at the close of advertising, 12 submissions had been received.

The Council is required to consider all submissions when making its determination.

The subject Lot 13129 has direct access to a major road and contains a reasonably large cleared building envelope (central to the property) with vegetated areas on the boundaries of the property that can be utilized as buffer areas to protect the amenity of surrounding properties.

Submissions were received from surrounding properties, expressing concern that light industry may impact on their peaceful rural lifestyle and that light industry may impact on the amenity of the area, which includes native vegetation.

Local planning schemes usually work on the premise that all development requires approval. The scheme then lists a number of exemptions from this requirement. In accordance with the Shire's scheme, industrial development is not exempt from development approval, meaning at the development stage, an application is to be submitted to the Shire for consideration in accordance with the scheme.

In considering an industrial development proposal, there are objectives and standards in the scheme to allow Council to enforce the preferred location of development and including the protection of vegetation (e.g. Provisions '35 Protection of Amenity' and '43 Remnant Vegetation').

The term 'orderly and proper planning' is one that is used often by town planners as a test to determine whether approval of an application should be given. The term takes on different meanings depending upon the factual scenario at hand. In broad terms, it requires the consideration of whether an application is consistent with the objectives that are set out in the local planning scheme, and any relevant policy, for the area in question.

In accordance with the Shire's scheme, the objectives of the Light Industry zone require the protection of the amenity of an area, which may include the protection of vegetation. The objectives of the light industry zone include:

- *To provide for a range of industrial uses and service industries generally compatible with urban areas, that cannot be located in commercial zones.*
- *To ensure that where any development adjoins zoned or developed residential properties, the development is suitably set back, screened or otherwise treated so as not to detract from the residential amenity.*

'Amenity' is defined in the Model Scheme Text, as: 'all those factors which combine to form the character of an area and include the present and likely future amenity'.

Therefore, one of the considerations that must be made at the development stage, is whether the amenity of a locality will be adversely affected.

Based on the scheme objectives for the light industry zone, it is expected that industrial development will occur to ensure the amenity of the area is maintained.

In accordance with the Shire's scheme clauses 35 (Protection of amenity), 36 (Nuisance), 37 (Landscaping), 39 (Maximum building height) and 43 (Remnant vegetation), the use and development of land shall be undertaken to preserve the pleasantness or attractiveness of the place. In accordance with the Shire's scheme clauses, the design of any future industrial development, should consider the following:

- Vegetation protected to maintain the attractiveness of the place
- Maximum building heights
- Building materials that blend to the surrounds and that mitigate noise
- Apparatus that limits the escape of dust, fumes and odours
- Safe and convenient access.

In summary, the Shire's scheme objectives and clauses 35, 36, 37, 39 and 43, can be administered to ensure any potential issues are appropriately dealt with, so as not to impact the amenity and existing or future neighbouring land uses.

The following diagram shows a potential building envelope (existing cleared area) and vegetated areas surrounding. The amenity of the area can be maintained by protecting the vegetation and ensuring buildings use material that blends with the surrounds (e.g. use of coloured materials that blend to the surrounding landscape).

As illustrated in the below diagram, the location of light industry adjacent to housing, is accepted practice in the Shire. The co-location of industry and housing, facilitates easy access (walking) to places of employment.

The Environmental Protection Authority (EPA) has developed a guidance document, which includes recommended separation distances (buffers) between industrial development and housing (to avoid land use conflict). For example, the EPA guide on separation distances, recommends a buffer distance of 200m between a panel beater (light industry) and a dwelling. Note, the subject site (Lot 13129) allows for setbacks in excess of the 200m recommendation (260m and 360m). Note also the EPA has no concerns with the proposal.

Should an industrial activity operate to cause land-use impact (noise, odour, dust) to a neighbouring sensitive use (e.g. dwelling), in accordance with the Shire's scheme and the *Environmental Protection Act 1986*, enforcement actions can be taken. Should a neighbouring property complain about noise, dust or odour, an officer can investigate and if a breach has occurred, then action can be undertaken and the offensive activity may have to cease operations or undertake mitigation measures in order to continue operating.

Should the Council resolve to recommend that the Minister amend the zoning to 'Light Industry', future development of the site for light industrial activities should be permitted ('P' uses), subject to complying with the provisions of the scheme. Note, in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015, Part 7, cl.60*, a person must not commence or carry out any works on, or use, land in the Scheme area unless the person has obtained the development approval of the local government.

As indicated by agencies (see schedule of submissions):

- There is the likelihood of bushfire risk due vegetation surrounding the subject site
- Future subdivision or development of the site should adhere to State Government Policy
- Waste disposal should be appropriately managed
- Future development should ensure safe access to and from the main road

- Water infrastructure may require upgrades

The factors raised by the agencies can be addressed at the development stage, in accordance with scheme provisions and Shire policy. In relation to bushfire, the bushfire construction provisions of the Building Code of Australia do not apply to commercial/industrial buildings (Class 4 to Class 9 buildings). In these instances the applicant has the discretion to utilise any or all of the elements of the Australian Standards (AS 3959) in the construction of the building that they deem appropriate.

The physical attributes of the site (e.g. existing cleared areas, existing access to a major road, existing vegetated buffers), allow for light industrial activities to occur, without impacting on the existing amenity.

The Shire's scheme objectives and clauses, provide the opportunity to ensure works and uses are designed and managed to protect the existing amenity.

The Council is recommended to finally support the scheme amendment as no fundamental issues, pertaining to the proposal, have been raised.

#### **STATUTORY OBLIGATIONS**

Regulation 50 of the *Planning and Development Regulations 2015* states:

(2) *In this regulation —*

*consideration period, in relation to a standard amendment to a local planning scheme, means the period ending on the latest of the following days —*

- e) the day that is 60 days after the end of the submission period for the amendment;*
- f) the day that is 21 days after the receipt of a statement in respect of the amendment delivered under section 48F(2)(a) of the EP Act;*
- g) the day that is 21 days after the receipt of a statement in respect of the amendment delivered under section 48G(3) of the EP Act if that statement is in response to a request by the local government made under section 48G(1) of the EP Act before the later of the days set out in paragraphs (a) and (b);*
- h) a day approved by the Commission;*

Regulation 53 of the *Planning and Development Regulations 2015* states:

(1) *After passing a resolution under regulation 50(3) the local government must provide the advertised amendment to the local planning scheme to the Commission together with the following —*

- e) a schedule of submissions made on the amendment;*
- f) the response of the local government in respect of the submissions;*
- g) particulars of each modification to the amendment proposed by the local government in response to the submissions;...*
- h) a copy of the resolution passed under regulation 50(3);*

Clauses 35, 36, 37, 39 and 43 of the Shire's scheme are stated as follows:

**35 PROTECTION OF AMENITY**

*No building shall be so constructed, finished or left unfinished that its external appearance would, in the opinion of the Council, detract from the visual amenity of the locality or have the potential to depreciate the value of adjoining property. All land and buildings shall be used and maintained as to preserve the local amenity to the satisfaction of the Council.*

**36 NUISANCE**

*No land, building or appliance shall be used in such a manner as to permit the escape therefrom of smoke, dust, fumes, odour, noise, vibration or waste products in such quantity or extent, or in such a manner as, in the opinion of the Council, will create, or be a nuisance to, any inhabitant or to traffic or persons using roads in the vicinity.*

**37 LANDSCAPING**

*Landscaping shall be undertaken and maintained to Council's satisfaction for all development unless, in the opinion of the Council, such landscaping is considered unnecessary. Such landscaping shall generally be located in such positions on a site or sites so as to enhance the appearance of any development or screen from view any parking area, open storage area, drying areas and any other space which, by virtue of its use, is likely to detract from the visual amenity of the surrounding area.*

**39 MAXIMUM BUILDING HEIGHT**

*No site shall be developed or building constructed to contain more than two storeys or exceed 10 metres in height measured to the highest proportion of the building from mean natural ground level, or such other ground level, as may be determined by Council.*

**43 REMNANT VEGETATION**

*Where, in the opinion of Council, and with the advice of the Department responsible for agriculture, land, the subject of an application to subdivide or commence development, is degraded, Council may require the land owner to undertake such measures to rehabilitate the land to a satisfactory standard and to protect it from further degradation.*

The proposal to amend the zoning and reservation has been assessed by the Environmental Protection Authority (EPA). The EPA decided that the scheme amendment does not require assessment under Part IV Division 3 of the *Environmental Protection Act 1986* and that it is not necessary to provide any advice or recommendations.

➤ **Economic and Social**

The vision is the creation light industrial uses operating to provide services and employment opportunities to the community of Boyup Brook.

### **VOTING REQUIREMENTS**

Simple majority

### **CONCLUSION**

The proposed amendment involves Rezoning Lot 13129 Bridgetown Boyup Brook Road, from the 'Rural' zone and the 'Public purposes' reserve (purpose: water and parkland), to the 'Light Industry' zone.

This scheme amendment creates an opportunity to make available additional land for light industrial activities. Industry creates employment opportunities for both skilled and unskilled workers, with opportunities for light manufacturing, repair, maintenance and service facilities.

As indicated in this report, the subject Lot 13129 is considered suitable for industrial activities. The Lot has a cleared level area, suitable for development and which is surrounded by vegetation to act as a natural buffer to neighbouring landholdings.

The Council is requested to FINALLY SUPPORT the scheme amendment for the following reasons:

- Submissions on the amendment have been adequately reviewed with no outstanding issues that cannot be addressed at the development stage.
- The proposal meets objectives of the scheme and State Planning Policy criteria.

**OFFICER RECOMMENDATION – ITEM 10.4.2**

THAT Council, pursuant to Part 5 of the *Planning and Development Act 2005*, resolves to:

1. Finally approve, without modification, Scheme Amendment No. 21, to amend the Shire of Boyup Brook *Local Planning Scheme No. 2* by:
  - a) Rezoning Lot 13129 Bridgetown Boyup Brook Road, from the ‘Rural’ zone and the ‘Public purposes’ reserve (purpose: water and parkland), to the ‘Light Industry’ zone.
  - b) Amending the Scheme Maps accordingly.
2. Note the submissions received as detailed in the Schedule of Submissions and Recommendations.
3. Notify the applicant and submitters of Council’s decision.
4. Forward amendment documentation and submissions to the Western Australian Planning Commission with a request that the Hon. Minister for Planning grant approval to the amendment and its gazettal - with no modifications.

The Amendment is a ‘Standard’ amendment under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason(s):

- a) The amendment would have minimal impact on land in the scheme area that is not the subject of the amendment; and
- b) The amendment does not result in any significant environmental, social, economic or governance impacts on land in the scheme area.

#### SUMMARY

Council is requested to advise the Western Australian Planning Commission (WAPC) to conditionally support the proposed 'Rural' Lot 7 Reservoir Road subdivision (1 lot into 2 lots).

In accordance with the Shire's scheme clause 25, the proposal is not expected to impact on the integrity of farming practices or rural character and rural appearance of the area. The property is somewhat constrained in its ability to farm, due to its irregular shape, small size, a watercourse running through the centre of the property and a substantial area of remnant vegetation.

## **BACKGROUND**

The Western Australian Planning Commission forwarded the subdivision application to the Shire of Boyup Brook requesting information, comment or recommended conditions.

In accordance with the Commissions Development Control Policy 3.4, the application is proposed as a 'Homestead Lot' subdivision, meaning:

*A small lot generally ranging from one to four hectares, but may be up to 20 hectares in size depending on site specific circumstances, which is excised from a larger farm holding for separate occupation, such as by a retiring farmer wishing to remain in an approved existing dwelling.*

## **DISCUSSION**

Lot 7 Reservoir Road is 63.9 hectares in area and is located approximately 5km south east of the Boyup Brook Townsite.

The Lot has an irregular shape with frontage to Reservoir Road on its southern boundary and comprises one single dwelling with associated outbuildings situated near the southern portion of the property.

The southern half of the property has been cleared through its historical agricultural use (primarily grazing). The northern half of the property includes a vineyard and remnant vegetation.

The centre of the property consists of a watercourse and water pipe infrastructure, which transports water from a reservoir located further to the east, to the Boyup townsite.

Proposed lot 100 will be 13.79 hectares in area with direct frontage to Reservoir Road.

Proposed Lot 101 will be 50.25 hectares in area with battle-axe-access to Reservoir Road.

The Shire notes the Western Australian Planning Commission Development Control Policy 3.4, which states:

*In considering applications under section 6, the WAPC will consider rural subdivision...to allow for the continued occupation of existing homesteads when they are no longer used as part of a farming operation*

Council is recommended to agree to support the proposed subdivision for the following reasons:

- The creation of the two lots is not expected to impact on the integrity of farming practices or rural character and rural appearance of the area.
- The property in its current format, is somewhat constrained in its ability to farm, due to its irregular shape, small size, an intermittent watercourse running through the centre of the property and a substantial area of remnant vegetation.

Council is recommended to agree to the following condition of subdivision:

1. Shared crossover between proposed lots 100 and 101, with direct frontage to Reservoir Road.

**STATUTORY OBLIGATIONS**

*25 RURAL ZONE*

1. *In considering applications for subdivision, rezoning and planning consent in the Rural Zone, Council shall have regard to:*
  - a) *the need to protect the agricultural practices of the Rural zone in light of its importance to the District's economy;*
  - b) *the need to protect the area from uses which will reduce the amount of land available for agriculture;*
  - c) *bushfire risk to the locality and adequacy of fire suppression measures;*
  - d) *the need to preserve the rural character and rural appearance of the area; and*
  - e) *where rural land is being subdivided for closer development, the proposal should be supported with evidence outlining the land's suitability and capability for further development.*

**VOTING REQUIREMENTS**

Simple majority

**OFFICER RECOMMENDATION – ITEM 10.4.3**

That Council advise the Western Australian Planning Commission to support the proposal to subdivide Lot 7 Reservoir Road from one lot, into two lots, for the following reasons and with the following condition:

**Reason for support**

- The creation of the two lots is not expected to impact on the integrity of farming practices or rural character and rural appearance of the area. The property in its current format, is somewhat constrained in its ability to farm, due to its irregular shape, small size, an intermittent watercourse running through the centre of the property and a substantial area of remnant vegetation.

**Condition**

1. T20 – Suitable arrangements being made with the local government for the provision of vehicular crossover(s) to service the lot(s) shown on the approved plan of subdivision.

Advice – Appears the current Lot may be accessing Reservoir Road via the adjoining Lot 66 (to the east). Both lots need to arrange direct access to Reservoir Road, via a shared crossover.
